

Two-pile Nim strategies:

Put a box around the *losing* positions and cross out the *winning* positions.

5      4 + 1      3 + 2      2 + 3      1 + 4      5

4      3 + 1      2 + 2      1 + 3      4

3      2 + 1      1 + 2      3

2      1 + 1      2

1      1
